Wheat---Mills---Coopers, Ac.

The Madison Courier of the 1st inst. says, "the shipment of wheat from this place to points above us on the river, amounts . . . to something over one thousand bushels daily." And that paper also regrets, very properly, that such is the fact, and that the wheat is not manufactured in that city.

Grand Editorial Convention.

The Tippecanoe Journal proposes an Editorial Convention, without respect to party, to be holden at Indianapolis about the time proposed for the State Conventions, whig and democratic, and editors of both parties have also proposed to hold separate Conventions about the same time. The Journal gives some good reasons for its proposition, and we second the motion with all our hearts.
